- [St. Joseph Public Schools](#)
- [Saugatuck Public Schools](#)
- [South Haven Public Schools](#)
- [Van Buren Technology Center](#)
- [Watervliet Public Schools](#)

Middle College High School Opportunities

Middle College High Schools are designed to meet the needs of students who may do better in a non-traditional high school setting or are interested in being challenged. These programs provide students with both a high school diploma and up to 60 college credits which are transferable to most state colleges and universities.

Middle College High School programs may be career focused and usually are located on a college campus. These programs are created through community collaboration between an intermediate or local school district and a community college.

Enrollment in these schools can begin as early as ninth grade with college classes beginning as early as tenth grade. Early/Middle College High Schools have several locations in Michigan.

Mott Middle College High School
1401 E. Court St.
Flint, MI 48503
Contact: Chery Wagonlander, Principal
PH#: 810-232-8531
Email: cwagonla@geneseeisd.org
Web: <http://mmc.geneseeisd.org/>

Mott Middle College (MMC) is a middle college/high school for at-risk youth in Genesee County and districts geographically adjacent to Genesee County. Open to students in all of the county's 21 public school districts, the program is designed to provide "intensive care education" to students with academic potential who are at risk of dropping out before high school graduation or who are achieving well below their potential.

MMC offers a fresh start to students who desire to transfer their academic and co-curricular program to the middle college/high school. MMC accepts 9th, 10th and 11th grade students both in the fall and winter semesters.

Washtenaw Technical Middle College
4800 East Huron River Drive
P.O. Box D-1
Ann Arbor, MI 48106-0978
Contact: Lee Schleicher, Dean
PH#: 734-973-3410
Email: Las@wccnet.edu
Web: <http://www.themiddlecollege.org/>

Washtenaw Technical Middle College (WTMC) is a Michigan Public School Academy chartered by and located on the campus of Washtenaw Community College (WCC). WTMC is a skill based, as opposed to a credit based, educational program. Rather than merely accumulating high school credits, WTMC students progress through the program by acquiring and demonstrating hard (academic) and soft (life management) skills.

After finishing the college core academic requirements students complete a technical certificate or associate degree from Washtenaw Community College. Each WTMC student chooses, based on their Educational Development Plan (EDP), one of 60 programs at Washtenaw Community College (<http://www.wccnet.edu/catalog/>) and additional electives.

Oakland Early College (New)
OCC Orchard Ridge Campus
Farmington, Michigan
Contact: Early College Information Line
West Bloomfield School District
PH#: 248-865-6477
Website: www.oaklandearlycollege.org

Oakland Early College (OEC) is an innovative partnership between the [West Bloomfield School District](#) and [Oakland Community College](#)'s Orchard Ridge campus. OEC students (grades 9-13) attend high school on OCC's campus, and engage in an exciting college-preparatory curriculum taught by teachers from award-winning West Bloomfield Public Schools.

A core element of OEC is dual enrollment in coursework at OCC. Students graduate with a high school diploma, innovative educational and professional experiences, and up to 60 transferable college credits or an Associate Degree in the field of their choice--all provided at no out-of-pocket cost to students and their families.

Students at OEC will be encouraged select areas of academic focus, and to work towards Associate Degrees in areas of study including:

- Liberal Arts;
- Fine and Performing Arts; and
- Business and Entrepreneurship.

OEC will open September of 2008, beginning with students in grades 10 and 11. OEC is now accepting applications from students throughout Oakland County, regardless of current district, for the 2008-2009 school year. The application deadline is April 4, 2008.

Middle College High School Health Partnership Grant Recipients

In addition to the schools mentioned above, several school districts applied for and received a Middle College High School Health Partnership planning grant during the 2005-2006 school year for implementation in the 2007-2008 school year. The goal of the project is to provide students the opportunity to graduate from the middle college high school with training in a marketable health sciences occupation.
